Introduction
This page presents a summary of results of the annual Next Step survey for Nursery Road State Special School. The Next Step survey, undertaken by the Queensland Government, targets all students who completed Year 12 and gained a Senior Statement in 2016, whether they attended a state, Catholic or independent school, or a TAFE secondary college. The Queensland Government Statistician’s Office conducted the survey between March and June 2017, approximately six months after the young people left school. Responses were collected online and via computer-assisted telephone interviewing.
Statewide and regional reports from the 2017 Next Step survey will be available on the Next Step website from September 2017 at www.education.qld.gov.au/nextstep.

Response rate for Nursery Road State Special School
Table 1 below reports the response rate for Nursery Road State Special School. It expresses the number of respondents from this school, as a percentage of all Year 12 completers who attended Nursery Road State Special School in 2016.

Definitions of post-school pathways
The post-school pathways of Year 12 completers from special schools were categorised into eight main destinations. Year 12 completers from special schools who were in education, training or employment as well as attending a day service were reported in their education, training or employment pathway. A table defining these pathways is shown in Table 2.

Summary of findings
In 2017, five young people who completed Year 12 at Nursery Road State Special School in 2016 continued in a meaningful post-school pathway in the year after they left school.
Work was a pathway for one respondent undertaking unpaid or volunteer work. A further four respondents were attending a day service.
Three respondents did not enter a meaningful post-school pathway and were not in the labour force, education or training.
